December 17, 2019

Hi,

I saw the listing on Handshake for a Web Designer. I am currently a senior at Virginia Tech, and I have interned at several tech companies doing full-stack work. My coursework and past internships have prepared me well for this position.

- **Coursework.** I have completed courses in software development methods, comparative languages, network systems, cloud development, and web development.
- **Past internships.** As an intern for Fig for two summers, SimonComputing last summer, HubSpot for my spring co-op, and Amazon this past summer, I contributed to the company by designing and implementing hundreds of tools used on the website.

I have experience with Java, HTML/CSS, Python, JavaScript and C. I am also fluent in three dialects of Chinese (Mandarin, Cantonese, and Toishanese).

Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,

Lin Chen
